

Manned Guarding

The manned guarding division was founded in 2005 with the goal of offering superior physical security services for the protection of persons and property in the Kingdom.

What is now the Guards Training School, run by the Ministry of Interior, was founded by Secure Services, as the training and development of our personnel has always been key to the success of our service delivery. Before assigning our personnel, they are first required to complete basic job training based on the British Security Industry Association curriculum, continuing our commitment to training and development.

Continuing our commitment to training and development, we deliver training on a weekly and monthly basis with Toolbox and Workshop sessions covering a variety of security and safety issues, including client specific requirements, which is managed by our dedicated training manager and team.

All our staff are trained and inducted before they are sent to a customer location for duty. The following services are provided by the division.

1. Commercial and Residential Guarding
2. Concierge/Reception
3. CCTV Operators
4. Mobile Patrolling
5. Remote Monitoring
6. Key-Holding
7. Alarm Response
8. Lone Worker Support
9. Loss Prevention
10. Training

Our 24-hour Control Room and Mobile Response team support the Operations and Training Managers, specifically during the night, weekend, and public holiday timings.

With an array of interactive communication and safety tools available, Secure Services is at the forefront of modern manned guarding services in the Kingdom of Bahrain.
